immersive
interactive

Immersive Interactive transforms modern classrooms into virtual learning spaces that are fully interactive and multisensory, allowing learners to engage and retain the content being delivered to them.

With Immersive Interactive, you no longer have to suspend disbelief - your learners can literally be anywhere in the world! And because the system does not require the use of goggles or headsets, you can practice inter-professional and multidisciplinary team training as a group.

MEDICAL SIMULATION, EDUCATION, COLLABORATION.

FULLY INTERACTIVE
Learners can experience fully immersive and realistic training environments where they can engage and interact through sights, sounds, smell and touch.

LIMITLESS CONTENT
Unlimited scenarios and didactic content providing learners with experience based learning, either from our content library or your own creations.
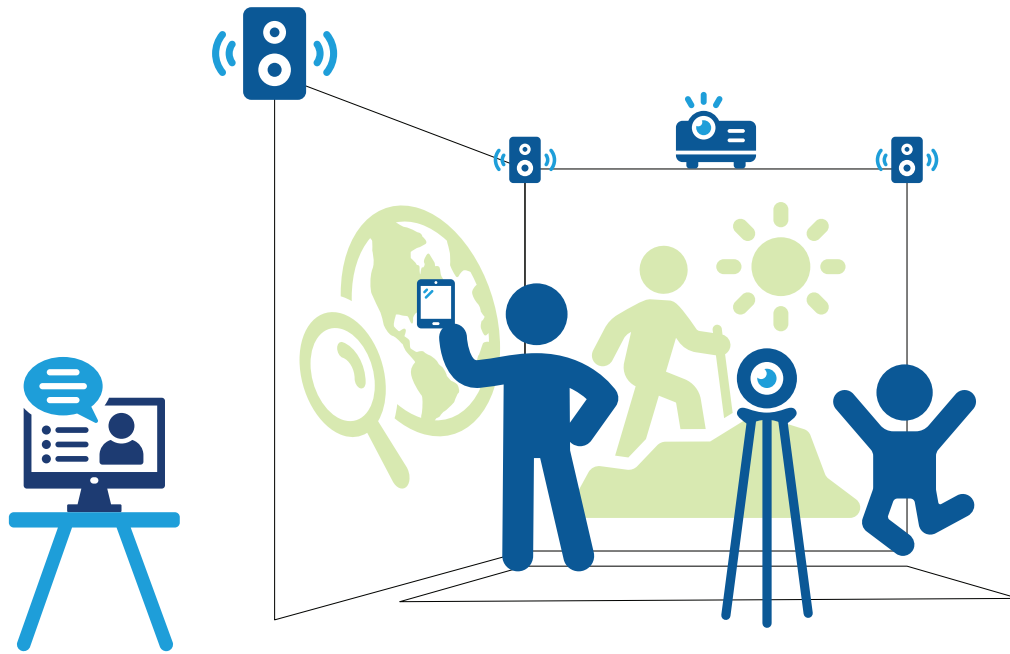

USER FRIENDLY
Faculty, staff and educators can easily navigate the Immersive Studio software to change scenario scenes, display didactic content, edit and upload their own content. All from the touch of a tablet!
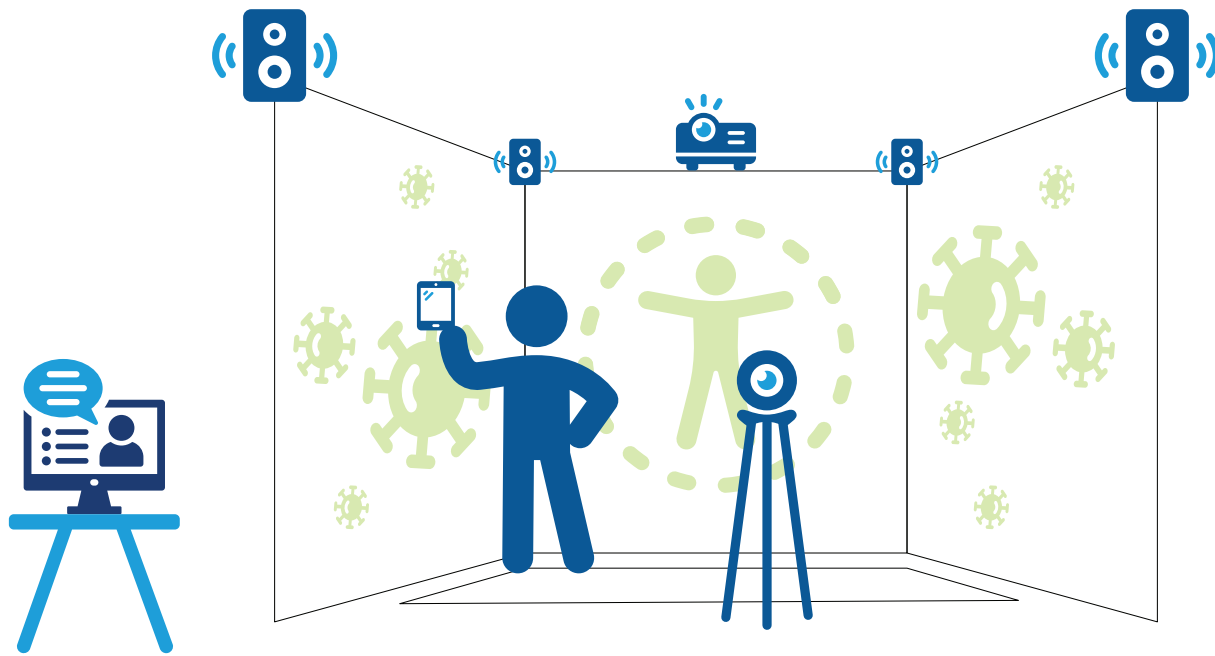

TRAINING & SUPPORT
Our team provides in-depth training and continuous support from initial design to implementation, giving you peace of mind every step of the way.
